

# TICKET CENTER

27" x 27" x 60" - 263 lbs.

## SEE THE FUN!

Smart Industries presents a unique feature on their popular Smart Ticket Center. Now players can enjoy watching this great unit in action through a 3/4" clear acrylic front cabinet door! Watch as it counts tickets, shreds them, and prints receipts for the ticket value!

The clear door was previously an option often requested by operators who were willing to pay a little more for the unique appearance of the machine, but now you can get a new Smart Ticket Center with a "clear door" at no extra cost just by asking your distributor at the time of purchase.

The proven Smart Ticket Center has been trusted by operators for over 10 years!

**Contact your distributor today,  
or call us at 1-800-553-2442!**
